

Introduction to the new interactive GRCA Fixing Guide

Glyn Jones

BSCP Civil and Structural Consulting Engineers, Leeds, UK.

Summary

The presentation will introduce the format and content of the forthcoming new GRCA publication, a Fixing Guide for GRC elements.

The Fixing Guide will be supplied in CD form and will be highly interactive, allowing the designer to select appropriate solutions for varied applications. It will make use of 3D illustrations and animations showing alternative fixing and installation systems.

The presentation will demonstrate the features and capability of the Guide.

No written paper is published – refer to BSCP for further information

Keywords: fixing guide, publication, GRCA.
